It is my pleasure to introduce the eighteenth edition of Manitoba Public Library Statistics.

The 1999 statistical information will provide public libraries with a means to compare activity levels and to set standards of measurement. The format is designed to ensure ready access to data that will be useful in the planning and evaluation of public library services.

My sincere appreciation is extended to all of the public library officers whose participation has made possible the publication of Manitoba Public Library Statistics 1999.

Ron Lemieux
Minister
Manitoba Culture, Heritage and Tourism

Je suis très heureuse de vous présenter la dix-huitième édition des statistiques sur les bibliothèques publiques du Manitoba.

Les renseignements statistiques pour les exercices 1999 permettront aux bibliothèques publiques de comparer les niveaux d'activité et d'établir des normes d'appréciation. Le format est conçu pour assurer l'accès rapide aux données qui seront utiles à la planification et à l'évaluation des services des bibliothèques publiques.

Je voudrais exprimer ma sincère reconnaissance envers tous les directeurs et toutes les directrices de bibliothèques publiques qui, par leur participation, ont rendu possible la publication des statistiques sur les bibliothèques publiques du Manitoba pour les exercices 1999.

EXPLANATION NOTES / NOTES EXPLICATIVES

The General **Information** section provides data that can be used to group similar libraries for the purposes of comparison. This includes a list of member municipalities, populations served and number of branches in multi-branch systems.

In the **Statistical Summaries** section, several important categories of data are shown in ranked lists to simplify comparisons.

In the **Income and Expenditures** section, percentages are shown which allow libraries to more easily compare themselves to provincial averages and to other libraries of similar size and organizational structure.

In the **Resources** section, the several non-print categories shown in previous issues have been gathered under one heading: "NON-PRINT". Holdings per capita are no longer calculated because as a measure of service, it has less value than turnover rate.

In the **Circulation** section, turnover rate is included. The turnover rate is derived from the annual circulation divided by total holdings. A high turnover rate indicates a collection that is well used. A low turnover rate may indicate a larger portion of material is not circulating and perhaps a weeding is in order. Libraries serving small populations can expect to have lower turnover rates than those serving larger populations.

Income and Expenditure data are taken from the audited statement submitted by the library.
Resources and Circulation figures are taken from Public Library Services data survey sheets.

In 1999, the Rural Municipality of Strathclair joined the Parkland Regional Library. Growth in total population counts shown in this edition of the statistics is due to this new establishment. In all cases, population figures are based on the 1996 Federal Census.

La section des **Renseignements généraux** foumit des données qui peuvent servir à regrouper des bibliothèques similaires à des fins de comparaison. Ceci comprend une liste des municipalités membres, de la population bénéficiant des services ainsi que du nombre de succursales dans les réseaux á succursales multiples.

Dans la section réservée aux **Résumés statistiques,** on présente plusieurs catégories importantes de statistiques dans des listes ordonnées, encore une fois dans le but de faciliter la comparaision.

La section portant sur les **Revenus et les dépenses** donne des pourcentages qui permettant aux bibliothéques de se situer plus facilement par rapport aux moyennes provinciales ainsi qu'aux autres bibliothéques de taille et de structure organisationnelle semblables.

Dans la section **Ressources,** nous avons rassemblé sous la rubrique **"MATÉRIAL DIVERS"** les nombreuses catégories de matériel divers présentées dans les publications précédentes. Les ressources documentaires par habitant ne sont plus calculées, car celles-ci se sont avérées moins utiles dans l'évaluation de la qualité du service que le taux de rotation.

La section consacrée a **Livres en circulation** comprend le taux de rotation. On arrive au taux de rotation en divisant le total annuel du matériel en circulation par le total des ressources documentaires. Un taux de rotation élevé indique que la collection circule bien. Si le taux de rotation est faible, cela peut signifier qu'une grande partie du matériel ne circule pas et qu'un tri s'impose. Les bibliothéques ayant un nombre peu élevé de clients peuvent s'attendre à avoir un taux de rotation plus faible que celles dont la clientèle est plus nombreuses.

Les données relatives aux revenus et aux dépenses sont tirées de l'état vérifié des comptes soumis par la bibliothéque. Les chiffres portant sur les ressources et le matériel en circulation proviennent des résultats de sondage de la Direction des bibliothéques publiques.

En 1999, la municipatité rurale de Strathclair en se joignant à la Parkland Regional Library. Dans cette édition du rapport statistique, l'augmentation de la population totale s'explique par la création de ce nouveau établissement. Dans tou les cas, les chiffres de population sont basé sur le recensement fédéral de 1996.

INCOME / REVENUS

Income is divided into three major sources: the municipal levy, the provincial matching grant and "other".

Municipal Levy – Total: Total income and grants in lieu of taxes from the municipality or municipalities which established the library.

Municipal Levy – Per/Cap: Total municipal tax levy divided by the total population of municipality or municipalities served by the library.

Municipal levy - % income: Total municipal tax levy divided by total income from all sources (last column).

Provincial Grant – Total: Total provincial contribution based on a grant matching the municipal levy up to a ceiling of $7.50. This column includes the Collection Development Grant ($5000 per branch/bookmobile).

Provincial Grant – Per /Cap: Total provincial contribution, not including establishment grants, divided by population served in member municipalities.

Provincial Grant - % income: Total provincial contribution, not including establishment grants, divided by total income from all sources (last column).

Other: Under the "other" column, all sources of income from overdue book fines to local fundraising, to grants obtained from other government sources and foundations are included, Establishment grants from Public Library Services are included in the "other" column.

Note: Percentages under the municipal levy and provincial grant columns allow libraries to make comparisons between municipal and provincial contributions. In no case do these two sources constitute the total income of a library. Consequently, the percentages do not add up to 100.

Les revenus proviennent de trois sources principales: la taxe municipale, la subvention de contrepartie offerte par la province et les "autre" sources de revenus.

Taxe municipale totale: Total des recettes fiscales et des subventions tenant lieu de taxes accordées par les municipalités qui ont fondé la bibliothéque.

Taxe municipale par personne: Le total de la taxe municipale divisé par la population totale des municipalités bénéficiant des services de la bibliothèque.

Taxe municipale - Pourcentage des revenus: Le total de la taxe municipale divisé par le total de tous les autres revenus provenent d'autre sources (dernière colonne).

Subvention provinciale totale: Financement total offert par la province, soit une subvention de contrepartie équivalente à la taxe municipale jusqu'à concurrence de 7,50 dollars. Cette colonne inclut également la subvention de développement des collections. (5000 $ par direction ou bibliobus)

Subvention provinciale par personne: Financement total offert par la province, à l'exception des subventions de fondation, divisé par le nombre d'habitants bénéficiant des services dans les municipalités membres.

Subvention provinciale - Pourcentage des revenue: Financement total offert par la province, à l'exception des subventions de fondation, divisé par le total des revenus provenant d'autres sources (demière colonne).

Autres: Vous trouverez dans la colonne des revenus d'autres sources, tous les revenus provenant d'amendes, de levées de fonds locales, ainsi que de subventions accordées par des fondations et des organismes gouvememementaux. Les subventions de fondation accordées par la Direction des bibliothèques publiques sont comprises dans la colonne reservée aux revenus d'autres sources.

Nota: Les pourcentages données dans les colonnes réservées à la taxe municipale et aux subventions provinciales permettent aux bibliothèques de comparer le financement obtenu des municipalités et de la province. Ces deux sources ne constituent en aucun cas le revenue total d'une bibliothèque. En conséquence, ces pourcentages n'atteignent jamais 100%.
